II. Interagency Papers

-- Poland. Secretary Shultz has asked for a NIE on "Whither Poland." Specifically he'd like an update on the relationship between Jaruzelski and Moscow, whether Jaruzelski will move toward some liberalization and the prospects for Solidarity and upheaval. NIO/USSR-EE has been working with Hugh Montgomery--State is providing the drafter--and we're shooting for completion on or about 30 August. There is likely to be some difference of opinion in the Community on how much freedom Jaruzelski has and what his intentions are. [REDACTED]

-- INF. The NSC has requested a paper on the prospects for deployment of the Pershing IIs and GLCMs. You will recall that we were just beginning work on our own hook on this subject. At the suggestion of [REDACTED] we have expanded the coverage of the paper to include the question of "What the Soviets will do if deployment goes forward?" TOR meeting went very well and we hope to have the paper completed the second week of September. [REDACTED]

III. Other Activities

-- C/NIC attended a SIG-IEP meeting at which the main topic of interest was debate over how to handle the probable French order to ship compressors to the USSR. Defense is arguing the need to warn the French government of the broader ramifications if they do. [REDACTED]

-- Also on the pipeline issue, there was a bit of hulabaloo in Western Europe over reports that political prisoners are to work on the pipeline. We have an emigre source who says that political prisoners are not involved in pipeline construction but that non-political parolees are used and are in considerable demand to provide labor.

-- NIO/GPF visited Andy Marshall to discuss the "lessons learned" studies on Lebanon and the Falklands. He is preparing a memo for you on this.

-- Acting NIO/WE attended the first meeting this morning of an informal watch group chaired by Richard Burt at State on INF-related developments over the next year.

IV. Future Activities

-- NIO/GPF will brief the Chairman, JCS, and Chief of Staff of the Air Force next week on the GPF intelligence production program.
